NOTICE TO READERS

The contents of this issue have been selected in an attempt to extend knowledge, improve practice and promote communication within the field of pistol shooting for the members of the Association. The Editor may at her discretion reject any contribution, hold it over for later publication, or edit out any unsuitable material. Opinions expressed are those of the original authors and do not necessarily reflect those of the Editor or the Association. Persons acting on any opinion, advice, fact or advertisement published in this issue do so at their own risk.

Editorial

Since the February VPN, there have been developments on the proposed State Shooting Centre. The State Government has announced a \$12.7M grant towards the purchase of land and design of the venue. I noted the curious wording and that no mention is made of construction. It became apparent through reading the minutes of the VAPA meeting, that this was not an omission - the actual cost of the venue is likely to be in the order of \$37M. There continues to be little communication to the member clubs regarding this proposal, and the fundamental questions raised in my February editorial continue to remain unanswered. Added to these questions is now the big one - where are the additional funds for the range development to come from? Are all the shooting organisations to be saddled with an enormous debt that will mean increased fees for members? There has been little communication regarding this project. Graeme has made some comments this month in Management Matters however I urge VAPA to commence a series of articles in your magazine to inform the members of the project and its development.

The development of a State Shooting Centre also raises another interesting issue - that of organisational amalgamation. For many years each of the respective shooting organisations has been run by its own administration, both within the states and nationally. There is the body AISL which administers international teams in the Olympic sports and also manages the government grants but this is the only collective group. This is in stark contrast to most other countries internationally where shooting is run by a single,

well organised administrative group.

I have long held the view that the small number of shooters participating the majority of our target shooting sports would be better served by being administered by one organisational entity. Perhaps the development of a State Shooting Centre will be an impetus to re-invigorate debate on this topic. There have always been nay-sayers against such a move - the smaller disciplines will be subsidised by the more popular events; the smaller disciplines will be forgotten as the larger disciplines get all the attention, and so on. However as shooting dwindles in membership the number of available people to run and administer the sport is also dwindling - as Gwen Roberts stated in a previous VPN "it is always the same people who do all the work". So there is quite a good argument for pooling the available resources to enable creation of a single strong organisational structure. Certainly within my own club the inclusion of rifle shooting, modern penthlon shooters and more recently the introduction of IPSC events has increased our club's membership while the influx of new members has enabled a more diverse representation of skills and experience on our committee.

Later this year our shooters will be competing at the World Championships in Munich and Commonwealth Games in Delhi. Already this year Australia has had strong results at the Sydney World Cup, and we look forward to watching the performances in Delhi. We wish them every success in their endeavours.

Until next edition - happy shooting.

Letters to the Editor

Dear Kim

I read with interest your editorial in the May issue of the VPN. I agree with your comments and I always found it amazing that organizing committees would worry about what type of trophy, and whether or not to award trophies at all to Master, A and B grades at all, yet never discuss increasing the entry fee to cover better prizes. You mentioned the Yarra events in 2005, I would like to share with you some observations of those events that may indicate other ways that Committees generally don't like change.

I came up with the idea of that Pistol only event mainly to use an under used resource at Yarra - The Air range. I took the idea to friend and fellow member, Darren Lark, and together we came up with a format for the event that included a scoring system that allowed everyone to compete on an even level and good prizes!

We attended a committee meeting to put our idea forward however the response was so lukewarm we considered abandoning the idea. Nevertheless we pressed

ahead & had tremendous support from unlikely quarters. We had guys from the service range, some of whom had never seen an Air pistol, come and join in and they had a ball! And we were supported by some of the top shooters in the country. Linda Ryan, one of the winners, offered to phone the sponsor of her prize to thank him personally. I don't know why some of the then committee and the more regular air pistol shooters around the club weren't interested and didn't join in - none would say why.

Anyway, we eventually held two events & they were an overwhelming success. I will finish by saying that the members of the committee that did support the idea (mostly service shooters) and the other members and the entrants were fantastic, had a great time and enjoyed the format we put together. I would encourage other clubs to try different event formats as our experience showed how much enjoyment could be had from a fresh approach.

Keith Hodson
Yarra PC

World Championship Team Nominations

Congratulations to the successful shooters who have achieved nomination for the World Championships to be held in Germany.

Management Matters

By Graeme Roberts, President VAPA

Welcome to our new members and if this is your first edition of the VPN then read and enjoy. After reading your copy if there is something you need to disagree with then we, mainly the Editor welcomes comment and suggestions, it is your magazine so be part of it.

In recent open and international events our shooters have done very well and we hope they continue to improve and make their mark on the shooting scene.

A very interesting article was put forward by our Editor Kim about the cost of running a sport and running opens and even club shoots. We at VAPA are aware of the problems such as Kim suggests but we are also aware of our membership with families and juniors who we have problems keeping for other reasons other than cost. It would be great to have sponsors to help with the costs and we haven't. We need to then try and find a middle ground for all and not make the sport an elitist sport that only a percentage of people can participate in.

In April I and other representatives of shooting sports joined the Minister for Sport Mr James Merlino for afternoon Tea and a briefing on the new shooting complex proposed. The minister is very keen to get it up and running and announced there was some extra finance arranged for early development. It is hoped that the project would be up and running quite soon. There was some discussion about how and who was the complex going to be administered. At least we have 2 models to

learn from, the failed South Australian range at Virginia and the Sydney International Shooting Centre to assist with the criteria.

Officials and Members, this range is not about taking people away from City and metro clubs. That would not be practical for a lot of people both geographically and time travelling. It is firstly to provide a centre for an area that lacks a lot of places for shooting sports to be held and most importantly it is for all shooting sports and IF we all don't cooperate and assist each other then it will simply be a divide and conquer exercise for the anti establishment and helped along by our own apathy towards saving our shooting sport. The range location has not been announced as yet so that the investors do not buy up parcels of land for their own profit. It most probably be in south west Gippsland.

The elections are coming up for another year and if you are interested then nominate for a position on the executive and make a difference with new and fresh ideas, and in closing I thank and congratulate our executive on the sterling effort they performed this year, The secretary Eddie Evans, Treasurer Bob Maddocks, Executive Officer Alex Eagle, No 1 Vice president Peter Davis and advisor Clive Woods without people of this calibre we would not be in the strong position that we are presently in.

GRR

News Snippets

*Our quarterly roundup of news & information from VAPA council & others.
Minutes of meetings are available with your club secretary*

Host Venues are required for the following 2011 Victorian Championships.

ISSF	March 12-14	Int 1920	August 13-14
WA1500 & Service 25	September 17-18	Black Powder	October 15-16
Service	November 19-20		

There are some 6,000 1920 Match targets that were misprinted and we were not charged for. If any club is interested contact Bob Maddocks on 0425 730 747

Behaviour in sport brochures and CD's are to be distributed to all clubs.

From the Combined Firearms Council

The nominees to represent VAPA on the Firearms Users Group are Graeme Roberts and Jack Pyne.

The proposed new range (State Shooting Centre) is expected to cost some \$35 Million and committees will be set up to work on the development.

Victorian Amateur Pistol Association

Notice is hereby given that the Annual General Meeting of the Victorian Amateur Pistol Association will be held at Melbourne International Shooting Club, 120 Todd Road, Port Melbourne, on Friday 16 July 2010, at 7.30pm.

The purpose of the meeting will be to:

1. Confirm the minutes of the Annual General Meeting held on 17 July 2009.
2. Receive and adopt financial statements and report for the year ended 30 April 2010.
3. Receive and adopt President's report.
4. Elect office bearers for the ensuing year (see below).
5. Attend to any other business that may be dealt with at the Annual General Meeting.

Minutes of meeting of the Annual General Meeting of the Victorian Amateur Pistol Association, held at Melbourne International Shooting Club on Friday 17 July 2009 at 7.45pm.

CHAIRMAN:

Graeme Roberts occupied the chair and welcomed the members.

APOLOGIES:

C Whelan, N Stewart, A Scougall.

PREVIOUS MINUTES:

The minutes of the Annual General Meeting held on the 18 July 2008 were confirmed on the motion of P Davis, seconded C Woods. Carried

REPORTS:

President

The report was published in the July issue of the Victorian Pistol News.

Treasurer

The report was published in the July issue of the Victorian Pistol News.

It was moved A Howard, seconded G Horton "that the reports be accepted" Carried

ELECTIONS:

G Roberts declared all positions vacant;

As there was only one nomination for the position of President, Graeme Roberts was declared elected.

As there was only one nomination for the position of Treasurer, Bob Maddocks was declared elected.

As there was only one nomination for the position of Secretary, Eddie Evans was declared elected.

As there was only one nomination for the position of Executive Officer, Alex Eagle was declared elected.

Nominations were called from the floor for the positions of 1st & 2nd Vice President;

The following nominations were received, and declared elected;

1st Vice President Peter Davis nominated D Lee, seconded C Woods.

It was moved A Eagle, and seconded C Woods "that Neil Stewart be awarded life membership in recognition of his many years of hard work on behalf of the Association" Carried

Closure: The meeting was declared closed at 7.50 pm.

President's Report to the members of VAPA – July 2009

from Graeme Roberts

Treasurers Report

ELECTION OF OFFICE BEARERS:

The following members have been nominated for the positions as listed.

Position	Nominee	Proposer	Secunder
President	Graeme Roberts (Diamond Valley)	G Roberts	N Jackson
1st Vice President	Peter Davis (MISC)	D Lee	E Evans
Treasurer	Robert Maddocks (Diamond Valley)	G Roberts	N Jackson
Secretary	Eddie Evans (Melton)	D Stephens	S Abela
Executive Officer	Alex Eagle (Outtrim)	A Eagle	E Evans

Nominations will be called at the meeting for the following position:

2nd Vice President.

VICTORIAN AMATEUR PISTOL ASSOCIATION INC

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 APRIL 2010

1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

This financial report is a special purpose financial report prepared in order to satisfy the financial reporting requirements of the Associations Incorporation Act (Victoria) 1981. The committee has determined that the association is not a reporting entity.

The financial report has been prepared in accordance with the requirements of the Associations Incorporation Act (Victoria) 1981. No Australian Accounting Standards, Australian Accounting Interpretations or other authoritative pronouncements of the Australian Accounting Standards Board have been applied.

The financial report has been prepared on an accruals basis and is based on historic costs and does not take into account changing money values or, except where specifically stated, current valuations of non-current assets.

The following material accounting policies, which are consistent with the previous period unless otherwise stated, have been adopted in the preparation of this financial report.

(a) FIXED ASSETS

All fixed assets are carried at cost less, where applicable, any accumulated depreciation.

The depreciable amount of all fixed assets are depreciated over the useful lives of the assets to the association commencing from the time the asset is held ready for use.

(b) INVENTORIES

All inventories are valued at the lower of cost and net realisable value.

(c) INCOME TAX

The Association is exempt from income tax.

(d) GOODS & SERVICES TAX

The Association is registered for Goods & Services Tax.

MISC 55th Anniversary Shoot

by Kim Frazer - Vice President MISC

In May the 55th MISC open was held. As one of the oldest clubs, this annual event was held in perfect Melbourne Autumn weather, although the hot air balloons hovering over the Melbourne skies indicated a cold start to the day. Since its initial days, the open has expanded to include rifle events - both benchrest & ISSF - as well as the traditional pistol competition.

Hot air balloons seen over Melbourne in Winter

The rifle events produced stellar performances with two perfect 600 scores being recorded in the Benchrest events. Peter Males of MCC took out the event by one centre from local favourite Richard Lightfoot. MISC is indebted to Richard for the enormous effort he has mounted in recent months on the club's maintenance program and the club was presented in perfect condition for the two days of shooting. In the week preceding the competition Richard organised for a regrading of the car park which means club members hopefully won't have potholes and puddles this winter.

The 50m ranges were managed by club vice-captain Reg McCready. The 50m Pistol event kicked off the program on Satur-

day with a win by Australian representative and MISC member Chris Roberts on 534. The 25M ranges were run by Club Captain Ian Butland who ran this for the whole weekend. First up on Saturday was Women's Sport Pistol won by Marianne Austin on 567, followed by Centre Fire which was taken out by Gary Mullens on 554 on a central countback from Mikhail Tretiakov. The Centre Fire match required a judge's ruling to help us decide what to do as the event was technically a tie, however one of the competitors had left so a shoot-off wasn't possible. Our thanks to Bob & Peter Davis for clearing this up, and Peter has elaborated on this point in his Judge's corner this month. The day closed with the Women's Air Match won by Renata Janska on 370. The club had intended to run finals in this event, but these were cancelled owing to a lack of competitors willing to stay.

Sunday was off to an early start with Standard at 8am. Competitors must have thought they were in Ballarat it was so cold. The sun soon shone through and another beautiful day arrived. The standard events were completed with Chris Roberts (pictured) recording the best result on 565 which included the very pretty 98 shown below. Two details of Men's air followed and Gary Mullens was in the winner's circle again recording the highest result of 563. Finally those intrepid competitors contesting 5 matches finished off with Rapid where Gary again victorious with 523.

A small number of juniors contested the Junior Sport and Junior Air (60) events over the weekend. Janek Janski was a clear winner in both events, while Chelsea Mullens was the sole junior air female

competitor.

Like every event of this type, a huge number of volunteers go into making it a success. Our thanks to the ladies in the canteen Barbara, Brenda and Lesley headed by Val McCready, Chris on the BBQ, all our club members who came and helped with RO, scoring, patching and of-course the competitors who assisted with

these duties as well as shooting and entering. Thanks also to our jury members Bob and Clive who resolved the small number of issues that arose over the weekend without fuss. Finally a big thank you to our sponsors Victorian Arms and Forbes Wholesale.

Chris Roberts in action - 98 in Standard at 20 seconds

Accuracy and reliability are of paramount importance in target pistol shooting. It's no use having one without the other. Precision should also be considered. I will define this as the size of the group. Bench rest rifle shooters are more interested in precision than accuracy. They don't aim to hit the 10X ring each time they shoot! Here the size of the group is what counts.

Over the 50 or so years I have pistol shooting I have owned, sold and used a wide variety of .22 target pistols ranging from my first, a Unique, to the last, a Walther GSP. I have used standard velocity .22 long rifle ammunition, offered by a wide variety of manufacturers ranging in price from the el cheapo, to the horrendously expensive Tenex.

What pearly words of wisdom have I learnt? In the following, "performs well" means results in good accuracy, good precision and reliable functioning.

1. When you are investigating the choice of ammo for a newly acquired pistol look around your club and see who is using a similar make and model of the pistol. Watch them shoot with their pistol. Ask them about their experiences with this ammo. Can't find anyone? Then use your favourite Internet search engine.
2. The ammo that performs well in Pistol A usually performs well in Pistol B of the same, make, calibre and model. There are exceptions!
3. The ammo that performs well in Pistol A will not necessarily perform well in Pistol B of the same calibre from a different manufacturer. Once again, there are exceptions!

How do you sort things out? Obviously, it is worth the effort testing every possible make and model of ammunition available within the price range you can afford. But don't go for bankruptcy brought on by ammo testing! It can be a very laborious process.

The most important thing is to create a fair testing environment. That means under conditions where the variables are controlled as far as possible. The testing should be a fair comparison between the different brands of ammo. The ammo's performance should be evaluated at the

THE MTM PISTOL REST

longest range for the match.

The ideal environment would involve the use of a Ransom machine rest, a device that almost eliminates the human factor in the testing. When mounted properly and operated correctly, shot-to-shot conditions are almost identical. But Ransom rests are horribly expensive. Is there something cheaper that will do the job? (I have not had good experiences with my home made rests involving sand bags, etc. Your experiences may be better.) When I last looked the MTM PISTOL REST (this is not a machine rest) was priced at about

match scores disappointing?

by Bert Smith

\$60. What about asking your club to buy one for use by its members? I suggest locking it up when not in use. Otherwise it might mysteriously disappear! You may only have to use it once. It can be useful for a variety of tasks. Because every box of ammo is slightly different, MTM has developed this pistol rest to take the mystery out of each box. The MTM pistol rest is so versatile that it will accommodate a Derringer to a 14" Contender."

Conducting the Tests

After selecting ammunition and establishing the test environment, it's time to begin testing. Because the same conditions must exist for each ammunition brand, I suggest the following procedures:

1. Select the particular ammunition to test and load magazine(s). If you have 2 magazines, load both but note the group that is shot with a particular magazine.
2. Use the manufacturer's recommendations to clean the barrel.
3. Fire 5 shots into the backstop to foul the barrel.
4. Fire at least 2 5-shot targets, one with each magazine.
5. Take note of any problems that occur during firing. (Especially reliability using the chosen ammo.)
6. Repeat the above for the next ammunition

Cleaning residues left by a previously fired ammo brand is important. Some cartridges do not react well to a "foreign" substance in the bore, i.e. residual wax and lead left in the bore from the previ-

ous ammo can produce enlarged groups with random flyers. In other cases, the residue of the might actually make a cartridge perform better.

Analysing the Results ("Lies, damned lies, and statistics")

Now it's time to interpret your data. Keep in mind any notes that you took during the course of the testing. There are usually surprises and disappointments when test targets are studied. When I did this for a Walther GSP, Smith a Wesson Model 41 and a Hammerli 208, I found that the two European pistols were very accurate, but highly ammunition-sensitive. (They only liked the European ammo.) Ammo performing well in a European pistol sometimes performs poorly in an American pistol. Furthermore, the most expensive ammo wasn't the best! A clue is to always try European ammo with a European pistol and American ammo with a US pistol. Having made a decision about what ammo is best, I suggest buying a case lot of 5000 rounds, before the manufacturer replaces it with something else, or there is a price hike. Been there! Done that!

Testing Ammunition for a .22 Pistol: <http://tinyurl.com/2ag3p7h>

Re: Eley ammo choices? <http://tinyurl.com/2buf5e3>

Editor's Note: Apologies to readers. In the last edition, the picture of the MTM Pistol rest was not shown & the Ransom rest was duplicated. This was an error in the proof reading.

Judge's Corner

By Peter Davis, National A Judge

I hope to clear up some misunderstandings in changes that have been made to the scoring of targets in all of the ISSF events. The biggest change is the scoring of inner tens better known as the "X" ring.

We know that for the 10 and 50 metre events tied scores are separated on a count back, used to be done by the total of the last ten shot series then moving back until the tie was broken. If scores were not broken in this way the number of tens, nines etc was looked at to break the tie. This has now changed.

The following applies to breaking ties in 300, 50, 10 and 25m events (if there is not a shoot off).

The highest number of inner tens, the highest score of the last ten shots working backwards by 10 shot series in full ring scoring (not inner tens or decimal) until the tie is broken. The highest number of tens, nines, etc. If the tie is not broken at this point, the shooters must be ranked equal.

You may have smiled when you read earlier that count backs are used in 25m events, and thought that the shoot off has been dropped, sorry to disappoint you, the shoot off is alive and kicking although it has also been changed.

Shoot offs for all 25m events are one sighting series as per the match and then one series as follows Rapid Fire 4 seconds, Standard Pistol 10 seconds 25m pistol or centre fire one rapid fire stage series. If ties and not broken then shoot off will continue one series at a time until tie is broken.

The count back for 25m events comes into play if there is not a shoot off due to

circumstances such as both competitors have left and will not be returning.

And here is something for you to ponder upon whilst you get your 2009 ISSF rule book out and check the rule numbers, there is now a shoot off for competitors who have tied in eighth position going into the finals for the 10, 50 and 300m events. This consists of five shots fired under the finals regime for the match and scored decimally; if tie still exists then it is shot for shot until tie is broken.

The above can be found in the rule book on pages 248 and 249 rule number 6.14 to 6.14.6.5.2.

Australian International Shooting Limited has developed a new look website. Launched in June, the site is located at the same address:

www.ausshooting.org

The new look has all the stories about what our local shooters are doing, links to other popular shooting sites, plus an RSS feed so you can get all the latest updates delivered directly to your email.

My initial reaction when I first looked at the site was Wow - what an improvement. It seemed easier to find things and the colourful front page was a big change.

SOME IDEAS ON WHAT TO PUT IN A DIARY

By Alan Wattz - Coaching Director

Below is an old article that we have used in the VPN before, but it covers a subject that I believe is important and worth repeating

At an open shoot recently, I was watching a shooter record his scores as each 5 shots were called, and I could not help thinking that it was just recording history and it would not be overly helpful to improve his shooting. The score book did not record any influencing external factors, which may have had an effect, such as wind, temperature, a dark and rainy, or a bright sunny day. Objective comments and constructive observations about performance at physical and mental levels during competitions need to be recorded also. To this end, what a shooter needs as well as a score book, is a shooting diary.

The purpose of a diary is to help you train smarter and in a way that is oriented around your style of shooting. It is also to enable you to develop a shooting plan for your chosen match.

As Annette Woodward keeps a comprehensive diary, I asked if she would give us an insight into the type of entries that are important to her, and of course she agreed.

1. Range location (map) if it's the first time visited.
2. Range description---lighting in am/pm, target turning speed.
3. Air pistol target returning type (hand wind, hold button etc) and speed.
4. Wind, cover, heat and anything that might need to be adapted to in a match.
5. Competition match plan- eg: type and length of warm up, timing as in a break after every 5 shots, will I talk to someone when loosing the plot etc.

6. Technical goal- eg: follow through with trigger etc
7. Mental goal- eg: clear mind before every shot, be disciplined and put gun down when I lose concentration.

In training: write down the same as above, whatever you want to improve for the session based on what you have written in your last training session

After the match or training session: write what you have learnt or what questions you need to ask a coach to help you improve. Don't analyse on the score but on how well you achieved the goal. Sometimes there is a deterioration for a while as you work on something specific. Be positive with what you write. Eg: " I need to work on my stability" not "I was swaying all over the place" Be honest and unemotional. Write how you intend to achieve what you want to improve and if you don't know then ask until you get an answer.

Always write down anything that you hear from another shooter that will help your shooting improve.

Use a highlighter on a page that you think will be very helpful to read in the future.

I like to draw smiley faces if I am happy with a session.

Keeping a diary helps to make competition and training sessions the same.

Thank you Annette for your help. An entry page like that would be more useful to a shooter than a page full of scores.

If there is a specific topic that you would like to see discussed in this forum, just email me at: awattz@iinet.net.au

Vale George Rogers

by Rodney Johnson, OAM

All Australian competitive pistol shooters will and should be saddened by the passing of George Rogers on 5 June 2010, for it was principally him to whom we owe the secure position that pistol shooting sport currently occupies in Australia.

In 1955 there were two pistol shooting clubs in Australia – one in Adelaide the other in Hobart and whilst there may have been many people who would have welcomed the opportunity to participate in this form of shooting, the possession of pistols was strictly limited by law in all states and required police licences to purchase and possess them and sport was not an acceptable reason in states other than SA and TAS. In Victoria the registration of the pistols in the calibre required for Olympic events were **prohibited**.

The awarding of the 1956 Olympic Games to Melbourne provided the spark for a change - Early in 1955 George, then the President of the Victorian Sporting Shooters Association, contacted Mr. E.J. Holt, the Technical Director of the Organising Committee of the Melbourne Olympic Games concerning the requirements for Australians to participate in the shooting events, which included "Free Pistol" and "Silhouette" (now Rapid Fire) pistol, both of which required 0.22 inch calibre pistols.

Mr. Holt advised that application for the appropriate licences should be made to the Police and that an Australian (Shooting) Association should be formed, to comprise of not less than 3 state associations each having not less than three pistol shooting clubs to affiliate with the International Shooting Union (ISU) – two new clubs were quickly formed in Victoria.

A meeting of State Presidents and one other

representative from South Australia, Tasmania and Victoria was held at Mount Gambier on 28 January 1956 where they agreed to the formation of The Amateur Pistol Shooting Union of Australasia but the S.A. Executive subsequently refused to ratify the agreement. At a second meeting in June 1956 in Melbourne, after strong and persistent action by George Rogers, representatives of South Australia, Tasmania, Victoria and New South Wales agreed to the formation of the Amateur Pistol Shooting Union of Australia which subsequently obtained affiliation with the ISU and recognition by the Australian Olympic Council.

Victoria legislated for provisional licences for pistols 'of an Olympic' type but only until the end of 1956. George then led a request to the Victorian Government to amend the legislation to allow the continuation of the sport of pistol shooting. Unfortunately the government was in the course of consolidating every Act of Parliament and did not agree to our request until the completion of the consolidation in 1958. Persons who had licences for 0.22 calibre pistols were allowed to keep them, no new licences were issued until the consolidation was completed, when there were eight new clubs waiting to seek licenses.

George was appointed as the Range Officer for the pistol events at the 1956 Olympic Games and continued as President of the Victorian Amateur Pistol Association until 1959 and of the Melbourne Pistol Club (now Melbourne International Shooting Club) until 1960. He left active participation in the pistol movement in 1967 due to pressure of family commitments and running his own business.

180 years of manufacturing high quality ammunition

In 2008 ELEY celebrated 180 years of manufacturing premium quality ammunition. ELEY has pioneered major developments in rimfire ammunition to produce the best cartridges in the world.

ELEY's reputation for excellence was achieved through the creation of Tenex. For over 50 years, Tenex has remained at the forefront of international shooting, winning more Olympic medals, World Cups and setting more World Records than any other manufacturer.
